

Photography **Final Assignment** Name: _____

You must hand in five of your photos in each category:

- animals
- people
- funny (*can include animal or people pictures*)
- inanimate objects (*people can be in the picture, but the inanimate object must be the intent of the photo*)
- miscellaneous

The 'miscellaneous' category can include photos that don't fit the five categories, or extra photos from a category where you have lots of good ones.

You may submit photos which have been marked previously.

Each of the five photos in a category will be marked according to this scale:

- 1 mark: named correctly (eg: josh-animals01) ie: your name-category-number
- 1 mark: correct size (one dimension 800 pixels)
- 1 mark: exhibits qualities of a good photograph
- 1 mark: exceptionally good photo

Any photo that is smaller than 800 pixels in both dimensions will receive a mark of zero

When all 25 photos are finished, save them on the USB drive provided.

If you need to take more pictures, see the teacher for a camera.
