

Photography **HANDS**

Create a photo essay about hands. Photograph hands only under various lighting conditions. Capture just the hand of a person, close-up.

Capture a wide variety of ages. Include very young hands and old ones too. Shoot from an angle and with lighting that make the texture show up.

Shoot in B&W, or convert. You may crop the photos, but no other editing is allowed.

Hand in your assignment in the usual way. Make sure your picture names include approximate age and your name

eg: photo1_age7_renessa.jpg
